

Let's put
recycling to
work for you

Retailers help the world recycle

Deposit return systems (DRS) for beverage container recycling help keep valuable resources in a continuous loop of use and reuse. At TOMRA, we call this process Clean Loop Recycling.

As a retailer, you're at the heart of Clean Loop Recycling. You play a critical role at the point where consumers buy and return their containers.

Let's put
recycling to
work for you

Choosing to partner with TOMRA means creating a **great recycling experience for your customers**, making a **smart investment for your store**, and choosing a solution that brings **peace of mind and excellent support for your operations**.

Solutions for SMALL stores

Dedicate as much space to sales as possible by accepting, compacting and storing used beverage containers with our smallest standalone reverse vending machines.

M1

More compact
than you think

Accepts up to three types of non-refillable containers: plastic bottles, cans and glass bottles

360° instant recognition: shape, barcode, weight, full container, and metal detection

Process up to 17 containers per minute

Footprint of 0.62 sqm

Performance data may vary across markets, deposit regulations and system requirements.
Machine availability may vary across markets. Visit [tomra.com](https://www.tomra.com) (international) to see our entire product portfolio.

Solutions for MEDIUM stores

Balance retail space and recycling volume with a space-efficient standalone machine that offers more storage.

T70 Dual

Make recycling
easy for you

Accepts up to three types of non-refillable containers: cans, plastic bottles and glass bottles

360° instant recognition: shape, barcode, weight, full container, and metal detection

Process up to 45 containers per minute

Accepts all: non-refillable plastic bottles, non-refillable glass bottles, and cans.

360° instant recognition: shape, barcode, weight, full container, and metal detection. Content detection.

Process up to 60 containers and per minute.

Accepts all: non-refillable plastic bottles, non-refillable glass bottles, and cans.

360° instant recognition: shape, barcode, weight, full container, and metal detection. Content detection.

R1 processes up to 120 containers per minute.

Innovative APIs

Your TOMRA reverse vending solution is connected to an industry-leading digital platform and compatible with a suite of APIs that help you work more efficiently, reward recyclers, and keep them coming back. Plus, with the TOMRA Collection Developer Portal, you have fast, easy, and structured information about our APIs, enabling efficient and seamless integration with your IT platform.

TOMRA Digital Payout

Reward bottle returns with loyalty points

Link your reverse vending machines to your loyalty app and offer customers a paperless way to return their bottles and earn loyalty points to redeem at your store.

TOMRA Status

Maximize uptime and streamline store operations

Receive real-time status notifications on your existing software or app so you know when your reverse vending machine needs attention.

TOMRA Consumer Sessions

Get return data right where you need it

Integrate return data into your existing software for real-time reporting that provides you with everything you need to know in one place.

TOMRA Volume by Supergroup

Have true container volume visibility

Gather container count data per supergroup to verify payouts with your system operator and feel confident your payment matches container return activity.

Please visit tomra.com to learn about our off-the-shelf digital tools.

First-class customer care

Ensure peace of mind for your store with TOMRA Service. Our remote tools and network of field service technicians keep your reverse vending equipment working hard for your business.

Real-time, remote monitoring

Preventative service

Online and onsite expert support

Comprehensive training

TOMRA Collection

TOMRA Collection is part of the TOMRA Group, which is Leading the Resource Revolution by transforming how we obtain, use, and reuse our world's resources.

With over 80,000 installations across more than 60 markets, retailers and consumers around the world rely on our reverse vending machines to collect more than 45 billion used bottles and cans each year, which can be recycled into new containers.

Clean Loop Recycling is the easy and rewarding way to make choices that make change.
